

Healthy Vision Month

Healthy vision can help keep you safe each day. To keep your eyes healthy, get a comprehensive dilated eye exam: an eye care professional will use drops to widen the pupils to check for common vision problems and eye diseases. It's the best way to find out if you need glasses or contacts, or are in the early stages of any eye-related diseases. **If you haven't had an exam in a while, schedule one now.** Some eye conditions can cause vision loss and even blindness. These include:

- **Cataracts**, a clouding of the eye.
- **Diabetic retinopathy**, which causes damage to the blood vessels in the back of the eye.
- **Glaucoma**, damage to the optic nerve, often with increased eye pressure.
- **Age-related macular degeneration**, which gradually affects central vision.

5 Steps to Protect Your Vision:

- 1 **Get a Comprehensive Dilated Eye Exam:** It's the best way to know if your eyes are healthy and you're seeing your best. Talk to your eye care professional about how often you should have one.
- 2 **Live a Healthy Lifestyle:** Maintain a healthy weight and eat foods like fish and dark leafy green vegetables to lower your risk of eye disease. And don't smoke—it's as bad for your eyes as it is for the rest of your body.
- 3 **Know Your Family History:** Genes are a factor in eye disease, including diseases that are the leading causes of blindness. Talk to your family members about their eye health history.
- 4 **Use Protective Eyewear:** Safety glasses or goggles can protect your eyes at work and at play. Talk to your eye care provider about the right protective eyewear for your sport or job.
- 5 **Wear Sunglasses:** Protect your eyes by choosing sunglasses that block out 99 to 100% of both UVA and UVB radiation.

Shared Decision Making

High Blood Pressure - "Should I take Medicine?"

Discuss this important shared decision making option with your doctor during your visit.

..... Q-U-O-T-E-S · to · L-I-V-E · b y ·

Here's to **strong women**
may we **know them**
may we **be them**
may we **raise them.**

Mother's Day is May 14

Stroke Awareness Month

The aim of National Stroke Awareness Month is to make Americans aware that they may be able to 'Save A Life' of a person experiencing a stroke. Emphasis is placed on making the public aware about acting FAST. **F.A.S.T.** is an easy way to remember and identify the most common symptoms of a stroke. Recognition of stroke and calling 911 will determine how quickly someone will receive help and treatment. Getting to a hospital rapidly will more likely lead to a better recovery.

F - FACE: Ask the person to smile. Does one side of the face droop?

A - ARMS: Ask the person to raise both arms. Does one arm drift downward?

S - SPEECH: Ask the person to repeat a simple phrase. Is their speech slurred or strange?

T - TIME: If you observe any of these signs, call 911 immediately.

Knowing the signs and symptoms of a stroke is the first step to ensuring medical help is received immediately.

Stroke Symptoms include:

SUDDEN numbness or weakness of face, arm or leg, especially on one side of the body

SUDDEN confusion, trouble speaking, or understanding

SUDDEN trouble seeing in one or both eyes

SUDDEN trouble walking, dizziness, loss of balance or coordination

SUDDEN severe headache with no known cause

Treatment Services

Seabrook House – Helping Families Find the Courage to Recover

Seabrook House is a multi-level premier inpatient and outpatient facility, internationally recognized, and accredited by CARF (Commission on Accreditation of Rehabilitation Services), alcohol and drug rehabilitation center. Each facility offers every level of inpatient and outpatient care from partial through one-on-one counseling. They offer the following services: Withdrawal Management (Detoxification), Residential Treatment, Partial Hospitalization, and Intensive Outpatient. They also offer Extended Care Programs: Seabrook House West, Changes for Women/Young Adult Program, and Recovery Enhancement Program. They offer The Family Matrix Program, a three day, structured experience designed to help families begin to heal and strengthen the bonds strained by addiction. They provide Holistic Approaches to Treatment such as Equine therapy, Music therapy, Yoga, Acupuncture, and many more. Please call for details. Seabrook House accepts many health insurance programs. Treatment is covered by most insurances. For more information, please visit www.Seabrookhouse.org or call 800.761.7575 x 1515

IMPORTANT REMINDERS

Please check off the things you need to address during your visit with your doctor.

- Communicate with your doctors online using the Patient Portal.**
Did you get your e-mail invite to access the Patient Portal yet? If not, please call or ask the receptionist at the front desk. Using a secure login, you will be able to communicate online with your doctor and will have 24/7 access to your personal medical history, prescriptions, and test results.
- Did you know that our doctors are available 24 hours a day / 7 days a week?**
*Please call us if you need care! There are options before deciding to go the Emergency Room. The Emergency Room costs you more money and takes much more of your time! Of course, you should call 911, or go to the emergency room, for life threatening care. *Horizon Patients are encouraged to go to Urgent Centers.**
- Did you see a Specialist or have you done any test(s) prior to your appointment?**
If so, make a list of the names of the doctors and their specialty. Please let us know so we can update your chart preferably when you make your appointment or during your visit so we can obtain the report(s) and your primary care doctor can review it during your visit. Please ask your specialist to send us their consultation report.
- Do you find yourself seeing a Specialist repeatedly?** If so, speak to your primary care doctor or care coordinator about when it is appropriate to see a specialist. We refer you to a specialist to obtain their expert opinion and treatment options. We typically suggest a time period that we are requesting their co-management of your care. In turn, the specialist should send us a consultation report in a timely manner to update us with your treatment progress. This should help us, your primary care doctor determine when you should go back to see the specialist.
- Does your insurance require you to obtain a referral to see a specialist, hospitals, etc.?**
Please check with your insurance provider if you need a referral. Call us ahead of time to request a referral so we can provide it to you prior to your appointment with the specialist.
- If you must go to the ER...it is very important to identify your PCP (Primary Care Physician) during admission to the Emergency Department or hospital admitting staff.**
- Do you have questions or are you confused about your medications?**
If so, please let us know so we can have our Pharmacist in our office go over your medications with you.
- Do you have diabetes and high cholesterol?**
If so, please let us know as we can refer you to a Nutritionist in our office at no charge, no co-pay.
- Do you need medication refills?**
Please call us ahead of time for refills on your medications. Please bring bottles of your medication(s) when you come in for your doctor's appointments. *Most importantly, always remember to take your medications regularly*
- Any recent change(s) in your personal information?**
 address? phone number (what is your preferred primary contact: cell or home)? medical insurance?
 emergency contact? e-mail address? If so, please let us know when you check-in.
- For Medicare Patients ONLY - Have you completed your Annual Wellness Form?**
Please ask the receptionist at the front desk to learn more.
- Shared Decision Making to discuss with your Doctor:**
 - Do you have Low Back Pain?**
If so, please let us know when you're scheduling an appointment.
Are you considering MRI? Discuss this shared-decision making with your doctor. Ask for a copy on Low Back Pain form or download it from our website @ www.primarycarenj.com
 - Are you being tested for PSA (Prostate Specific Antigen)?**
Discuss this shared-decision making with your doctor and get a copy of the Shared Decision Making on PSA.
 - Do you have High Blood Pressure? Should You Take Medicine?**
If so, please let us know when you're scheduling an appointment. Discuss this shared-decision making with your doctor. Ask for a copy or download it from our @ www.primarycarenj.com
- Do you have a copy of the "Patient-Centered Medical Home Guidebook"?**
If not, there are ways to get a copy. Please stop by at the front desk and ask for a copy. You can also download a copy from our web site @ www.primarycarenj.com. *If your insurance is Horizon, please get a copy!*
- Do you want to become a member of our Patient Advisory Group (PAG)?**
The PAG gives us an opportunity to hear from our patients about how we can be more patient-centered and better meet our patient's needs. We are looking for members! *If you are interested, please ask for Beth or Christine.*
