

Don't Just Drink. Think.

Drinking too much can harm your health. Excessive alcohol use has immediate effects that increase the risk of many harmful health conditions.

Alcoholism and **Drug Dependence** are complex problems, with many related issues. And, although there is no magic formula to help someone stop his or her drinking or drug use, **here are some important suggestions:**

- Learn all you can about alcoholism and drug dependence
- Speak up and offer your support
- Express love and concern
- Don't expect the person to stop without help
- Support recovery as an ongoing process

Some Things You Don't Want to Do:

- 1 **Don't Preach:** Don't lecture, threaten, bribe, preach or moralize.
- 2 **Don't Be a Martyr:** Avoid emotional appeals that may only increase feelings of guilt and the compulsion to drink or use other drugs.
- 3 **Don't Cover Up,** lie or make excuses for them and their behavior.
- 4 **Don't Assume Their Responsibilities:** Taking over their responsibilities protects them from the consequences of their behavior.
- 5 **Don't Argue When Using:** Arguing with the person when they are using alcohol or drugs is not helpful; at that point they can't have a rational conversation.
- 6 **Don't Feel Guilty** or responsible for their behavior, it's not your fault.
- 7 **Don't Join Them:** Don't try to keep up with them by drinking or using yourself.

Shared Decision Making

High Blood Pressure - "Should I Take Medicine?"

Discuss this important shared decision making option with your doctor during your visit.

Q.U.O.T.E.S to L.I.V.E. by

“ peace ”

it does not mean to be in a place where there is no noise, trouble or hard work. It means to be in the midst of those things and still **be calm in your heart.**

DEA National Rx Take Back Day
April 28, 2018 • 10:00 AM to 2:00 PM

If you don't properly dispose of the unused or expired prescription drugs in your home, they might find a new one.

- ◆ Unused or expired prescription medications are a public safety issue, leading to accidental poisoning, overdose, and abuse.
- ◆ Pharmaceutical drugs can be just as dangerous as street drugs when taken without a prescription or a doctor's supervision.
- ◆ The non-medical use of prescription drugs ranks second only to marijuana as the most common form of drug abuse in America.
- ◆ Unused prescription drugs thrown in the trash can be retrieved and abused or illegally sold. Unused drugs that are flushed contaminate the water supply. Proper disposal of unused drugs saves lives and protects the environment.
- ◆ Take-back programs are the best way to dispose of old drugs.

But if a program is not available:

- ✓ Take the meds out of their bottles
- ✓ Mix them with something unappealing like used kitty litter or coffee grounds
- ✓ Seal them in a bag or disposable container, and throw that way

For more information on prescription drug abuse, go to:

- www.DEA.gov
- www.GetSmartAboutDrugs.gov
- www.JustThinkTwice.gov

Treatment is covered by most insurances. For more information, visit www.Seabrookhouse.org or call 800-761-7575 ext. 1515

Healthy Recipe

April Fool

In food-speak, a “fool” is a quick English dessert of cooked berries layered with whipped cream. Traditionalists make it with gooseberries, but strawberries and raspberries work fine. It’s rich and lovely, and you don’t need a lot to finish a meal with finesse.

Serve it in a cocktail glass for the best effect.

Ingredients

- 1 cup strawberries
- ¼ cup granulated sugar substitute
- 2 tsp. fresh lemon juice
- ¾ cup fresh or frozen raspberries
- 1 cup heavy cream, whipped
- Whole berries for garnish

Directions

Put strawberries in a small saucepan. Add 1-1/2 tablespoons of granulated sugar substitute and 1½ teaspoons of lemon juice.

Cook on high just until the mixture starts to boil. Turn heat to medium and stir frequently, mashing berries with a spatula, to keep from burning or sticking to the bottom of the pan. After about 15 minutes, most of the liquid should be cooked off.

When you reach your desired consistency, let it cool and pour into a container to refrigerate.

To make raspberry sauce, combine raspberries, 1-1/2 tablespoons of sugar substitute and ½ teaspoon of lemon juice to a boil.

Let thicken and cool slightly. Press mixture through a fine strainer. This will take patience and about 20 minutes of mashing, but you will be rewarded with a rich, seedless sauce. Discard seeds.

For each fool: Put 2 tablespoons of cooked strawberries at the bottom of a cocktail glass. Whip the cream with the remaining sweetener. Put 2 tablespoons of whipped cream in each glass. Add 1 tablespoon of the seedless raspberry sauce.

Top with more whipped cream. Garnish with whole berries.
