

JULY 2★18

UV (Ultraviolet) Awareness Month

Summer has arrived and while the sun is shining bright, it's a golden time to remember to protect your eyes and the skin you're in!

How to Choose and Use Sunscreen:

Choose a Sunscreen that is —

- Broad Spectrum** - protects against both UV-A & UV-B rays
- SPF** (sun protection factor) of 15 or higher
 - SPF 15 filters out over 90% of the sun's harmful UV-B rays
 - SPF 30 - 96%
 - SPF 45 - 98%
- Waterproof if you will be sweating or swimming
- Made specifically for use on your face. This will help to avoid the sunscreen 'running' into your eyes and burning
- PABA (para-aminobenzoic acid) free if you are sensitive to that chemical.
- Choose water-based if you have acne or oily skin
- Not all sunscreens have the same ingredients – If your skin reacts badly to the one you are using, try one with different chemicals.
- Be aware of the expiration date.
- A more expensive brand is not necessarily more effective.
- Shake well before use.
- Use enough. Apply thickly and evenly.
- A good rule of thumb – use about 1 oz. or a handful to cover your entire body.
- Apply to all parts of your skin that will be exposed to the sun. Don't forget your ears, back, shoulders, the back of your knees and legs.
- Apply sunscreen:
 - About 20 – 30 minutes before going out in the sun
 - Every 2 hours when outdoors
 - After swimming or sweating
 - Even if you are wearing hats and protective clothing

Remember – No sunscreen offers 100% protection. Use sunscreen and practice sun safety for the best protection.

DID YOU KNOW? World Hepatitis Day is July 28th

World Hepatitis Day is recognized annually on July 28, the birthday of Dr. Baruch Blumberg (1925-2011). This year's World Hepatitis Day theme is "Eliminate Hepatitis". Hepatitis means inflammation of the liver. The liver is a vital organ that processes nutrients, filters the blood, and fights infections. When the liver is inflamed or damaged, its function can be affected. Heavy alcohol use, toxins, some medications, and certain medical conditions can cause hepatitis. However, hepatitis is most often caused by a virus. In the United States, the most common types of viral hepatitis are Hepatitis A, B and C.

Suicide Is Preventable

You cannot predict death by suicide, but you can identify people who are at increased risk for suicidal behavior, take precautions, and refer them for effective treatment. Listen and look for red flags for suicidal behavior, indicated by the **mnemonic**:

IS PATH WARM?

- I**deation—Threatened or communicated
- S**ubstance abuse—Excessive or increased
- P**urposeless—No reasons for living
- A**nxiety— Agitation/Insomnia
- T**rapped—Feeling there is no way out
- H**opelessness
- W**ithdrawing—From friends, family, society
- A**nger (uncontrolled)—Rage, seeking revenge
- R**ecklessness—Risky acts, unthinking
- M**ood changes (dramatic)

If you think the person might harm him- or herself, do not leave the person alone. Say, "I'm going to get you some help."

Call the **National Suicide Prevention Lifeline, 1-800-273-TALK.**

Treatment is covered by most insurances. For more information, visit www.Seabrookhouse.org or call 800-761-7575 ext. 1515

Healthy Recipe

Summer Squash Sauté

This recipe takes about 10 minutes to cook, once you've cut all your vegetables.

It's a good dish to top pasta or serve with grilled chicken, lean beef, or salmon.

Ingredients

- 1 lb. summer squash, green and yellow
- 2 tbsp. olive oil
- 1 large onion, chopped (about 1 cup)
- 1 small red bell pepper, chopped
- 2 tbsp. basil
- 1 cup cherry tomatoes
- 2 cloves garlic, chopped
- 1/2 cup coarsely grated Parmesan cheese (2 tbsp. per serving)

Directions

Wash and trim ends of squash. Cut lengthwise and then cut horizontally in half-inch slices.

Pieces should be bite-size (they'll shrink when you cook them).

Heat oil in a deep frying pan. Sauté onion, pepper, and garlic.

Add squash and stir, about 3 minutes until tender.

Add basil and whole cherry tomatoes.

Stir just until tomatoes are heated and ready to pop, about 2 to 3 minutes longer.

Sprinkle with Parmesan cheese and serve immediately.

Makes 4 servings

Each serving contains about 149 calories, 10 g fat (3 g saturated fat) 7 mg cholesterol, 176 mg sodium, 11 g carbohydrate, 3 g dietary fiber, 6 g sugars, and 6 g protein.

Putting it over a cup of whole wheat spaghetti adds 174 calories, 1 g fat, 0 g cholesterol, 4 mg sodium, 37 g carbohydrate, 6 g dietary fiber, 1 g sugars, and 7 g protein.
