MAY 2@18

Skin Cancer is the most common form of cancer in the United States. The two most common types of cancer - basal cell and squamous cell carcinomas - are highly curable, but

can be disfiguring and costly to treat. Melanoma, the third most common skin cancer, is more dangerous and causes the most deaths. The majority of these three types of skin cancer are caused by overexposure to ultraviolet (UV) light.

Ultraviolet (UV) Rays are an invisible kind of radiation that comes from the sun, tanning beds, and sunlamps. UV rays can penetrate and change skin cells.

In addition to causing sunburn, too much exposure to UV rays can change skin texture, cause the skin to age prematurely, and can lead to skin cancer. UV rays also have been linked to eye conditions such as cataracts.

A change in your skin is the most common sign of skin cancer. This could be a new growth, a sore that doesn't heal, or a change in a mole. Not all skin cancers look the same.

A-B-C-D-Es of Melanoma:

- "A" stands for *Asymmetrical*. Does the mole or spot have an irregular shape with two parts that look very different?
- "B" stands for Border. Is the border irregular or jagged?
- "C" is for Color. Is the color uneven?
- "D" is for *Diameter*. Is the mole or spot larger than the size of a pea?
- "E" is for *Evolving*. Has the mole or spot changed during the past few weeks or months?

Talk to your doctor if you notice changes in your skin such as a new growth, a sore that doesn't heal, a change in an old growth, or any of the A-B-C-D-Es of melanoma.

Shared Decision Making

Low Back Pain - "Should I have MRI?"

Discuss this important shared decision making option with your doctor during your visit.

..... B.Y. O. B

Bring Your Uwn Medicine Bottles each and every time you come to our office. This is IMPORTANT so we can update your chart.

 $\cdots \cdots Q \cdot U \cdot Q \cdot T \cdot E \cdot S \cdots t \circ \cdots L \cdot I \cdot V \cdot E \cdots b y \cdots \cdots$

Sometimes the best therapy is a long drive, good music, & good company.

Stroke Awareness Month

Learn the signs. Face. Arms. Speech. Time to call 9-1-1.

F. A. S. T. is an easy way to remember and identify the most common symptoms of a stroke. Recognition of stroke and calling 911 will determine how quickly someone will receive help and treatment. Getting to a hospital rapidly will more likely lead to a better recovery.

- **F FACE**: Ask the person to smile. Does one side of the face droop?
- A ARMs: Ask the person to raise both arms. Does one arm drift downward?
- **S SPEECH**: Ask the person to repeat a simple phrase. Is their speech slurred or strange?
- **T TIME**: If you observe any of these signs, call 911 immediately. Knowing the signs and symptoms of a stroke is the first step to ensuring medical help is received immediately.

Preventing Stroke: Control Medical Conditions

- Check Cholesterol Talk with your health care team about this simple blood test.
- Control Blood Pressure Talk to your health care team about how often you should check your levels.
- **Control Diabetes** Talk to your health care team about treatment options.
- Treat Heart Disease Taking care of heart problems can help prevent stroke.
- Take Your Medicine Never stop taking your medicine without first talking to your doctor or pharmacist.
- Work With Your Health Care Team You and your health care team can work together to prevent or treat the medical conditions that lead to stroke. Discuss your treatment plan regularly, and bring a list of questions to your appointments.

Support Groups @ Englewood Hospital

Englewood Hospital Events Calendar

Please check Englewood Hospital's Calendar of Events link for upcoming events at https://www.englewoodhealth.org/calendar-events-classes

Bariatric/Weight Loss Surgery Support Group

A free program for patients who have experienced the surgical solution to weight loss. If you are considering surgery, you are also welcome to join the group. The support group meets on the first Tuesday of each month at 6pm.

Bereavement Support Group

VNA of Englewood: Bereavement Support Group runs on Thursdays from 12pm – 1:30 pm at Englewood Hospital. Please check with the hospital main desk for the location on each Thursday. For additional information, please call Erica DiFrancisco at 201-894-333, group facilitator.

Cancer Support:

Breast Cancer Support Group

Relax your mind as you connect with other women living with breast cancer. Open to all women experiencing any stage of breast cancer. First timers should call Cathy Verhulst at 201-608-2162 prior to attending. The support group meets the first and third Friday of every month at 10:30 am.

Oral, Head and Neck Cancer Support Group

SPOHNC (Support for People with Oral, Head and Neck Cancer), a patient directed, self-help organization founded in 1991 by an oral cancer survivor. It is non-profit organization dedicated to meeting the emotional, physical and humanistic needs of oral head and neck cancer patients and their care givers. Bergen County Chapter meets from 7pm – 8:30pm at Englewood Hospital on the fourth Wednesday of the month in conference room "A". For inquiries, please contact Patrick Taaffee at 201-931-6394.

Cardiac - Visiting Hearts: A Support Program for Cardiac Patients

New patients are informed of the "Visiting Hearts" program prior to their day of Pre-Admission Testing. For more information, please call Robyn Giaccone at 201-894-3950.

Diabetes Education

A free program is open to individuals and their families. This group allows participants to share their experiences, learn from others and discuss how they live with diabetes. Guest speakers are often featured. This group meets on the fourth Tuesday of every month from 7pm – 8:30pm. (No meetings in July and August). An Insulin Pump Support Group is held quarterly for those using an insulin pump, those interested in pump therapy, and those using multiple daily injections. To schedule an appointment or for additional information, please call 201-894-3335.

Support Groups @ Englewood Hospital

Families Anonymous

Families Anonymous is a group of concerned relatives and friends whose lives have been adversely affected by a loved one's addiction to alcohol, drugs or related behavioral problems. All who have experienced the effects of a loved one's addiction are welcome.

The group meets at Englewood Hospital every Friday at 7:30pm. Call 917-836-3672 or email gerilam@msn.com for more information.

Neuropathy Support Group

This group meets on the third Thursday of March, April, May September, October and November at 7pm. Call Rich Booz at 201-587-1250, Mary Robertson at 973-226-1535, Tom McCullum at 201-692-9313 or Dean Lewis at 631-223-8416 for additional information.

Post Partum Services / Wellness Wednesdays

You and your newborn child are invited to attend our group, focused on adjustment to motherhood, coping with stress, and adapting to new family dynamics. A licensed clinical social worker facilitates the sessions, which provide comfort, emotional support, information, and referrals to resources for new moms who are adjusting to parenthood. The group meets every Wednesday at 1pm. Registration is required. Call 201-894-3092.

Support Groups @ Holy Name Medical Center

Free Support Groups meet monthly. To register call 1-877-465-9626, unless otherwise noted.

Treatment is covered by most insurances. For more information, visit www.Seabrookhouse.org or call 800-761-7575 ext. 1515

Healthy Recipe

French Toast Sandwiches

(Gout-friendly)

Ingredients

4 thin slices whole-grain bread

2 large eggs (alternative: 1/2 cup egg substitute)

1/4 cup skim milk

1/2 teaspoon vanilla extract

2 tablespoons reduced-fat cream cheese

2 tablespoons apricot preserves

Cooking spray

2 teaspoons powdered sugar

1/4 cup warm maple syrup

Directions

Preheat oven to 300°F. In a bowl or baking dish large enough for flat bread, beat eggs with milk and vanilla.

Make 2 sandwiches with the cream cheese and preserves.

Put sandwiches in egg/milk/vanilla mixture, carefully turning so both sides absorb the liquid.

Lightly coat a nonstick skillet or griddle with cooking spray and heat to medium hot.

Cook sandwiches until golden, turning once, about 2 to 3 minutes per side.

Place on cookie sheet in oven to finish heating until ready to serve.

Dust lightly with powdered sugar and serve with maple syrup.

Serves 2

Using eggs, each serving contains approximately 413 calories, 70 g carbohydrates, 6.25 g protein, 9.5 g fat, 419 mg sodium, and 4 g fiber. Using egg substitute, each serving contains about 392 calories, 69 g carbohydrates, 6 g protein, 6.5 g fat, 467 mg sodium, and 4 g fiber.

This recipe is gout-friendly because it contains foods that are moderate in purines. You should limit the amount of bran and wheat germ you eat to 2 ounces per day.
