

VISITING PARKS and RECREATIONAL FACILITIES

Staying physically active is one of the best ways to keep your mind and body healthy. In many areas, people can visit parks, trails and open spaces as a way to relieve stress, get fresh air and stay active.

Know Before You Go: While these facilities and areas can offer health benefits, *it is important that you follow the steps below to protect yourself and others from COVID-19.*

DO:

- ✓ Visit parks that are close to your home.
- ✓ Check with the park or recreation area in advance to prepare safely and to find out if the bathroom facilities are open and what services are available.
- ✓ Stay at least 6 feet away from others you don't live with ("social distancing") and take other steps to prevent COVID-19.
- ✓ Carefully consider use of playgrounds, and help children follow guidelines.
- ✓ Play it safe around and in swimming pools, hot tubs, and water playgrounds by keeping space between yourself and others.

DON'T:

- ✗ Visit parks if you are sick with, tested positive for COVID-19, or know you were recently exposed to COVID-19.
- ✗ Visit crowded parks.

VIRAL HEPATITIS

Viral hepatitis is inflammation of the liver caused by a virus. There are five different hepatitis viruses: **hepatitis A, B, C, D and E.**

Hepatitis A is mainly spread through eating contaminated food or drinking contaminated water. The disease is often endemic in countries with a lack of safe water and poor sanitation.

Hepatitis B is transmitted through contact with the blood or other body fluids of an infected person.

Hepatitis C is spread through blood-to-blood contact. It can also be transmitted through certain sexual practices where blood is involved.

Hepatitis D is passed on through contact with infected blood.

Hepatitis E is mainly transmitted through eating contaminated food or drinking contaminated water. Outbreaks generally occur where there is a lack of safe water and poor sanitation.

WEAR A MASK 🧢 PROTECT EACH OTHER

SUMMER UV EYE SAFETY

In order to be eye smart in the sun, the American Academy of Ophthalmology recommends the following:

- ☀️ **Wear sunglasses labeled “100% UV protection”.** Use only glasses that block both UV-A and UV-B rays and that are labeled either UV400 or 100% UV protection. Choose wraparound styles so that the sun's rays can't enter from the side. If you wear UV-blocking contact lenses, you'll still need sunglasses.
- ☀️ **Remember the kids:** It's best to keep children out of direct sunlight during the middle of the day. Make sure they wear sunglasses and hats whenever they are in the sun.
- ☀️ **Know that clouds don't block UV light:** The sun's rays can pass through haze and clouds. Sun damage to the eyes can occur any time of year, not just in summer.
- ☀️ **Be extra careful in UV-intense conditions:** Sunlight is strongest mid-day to early afternoon, at higher altitudes, and when reflected off of water, ice or snow.

UV INDEX SCALE

The **UV Index** provides

important information to help you plan your outdoor activities in ways that prevent sun overexposure.

■ **0 to 2: Low | No Protection needed.**

You can safely stay outside using minimal sun protection.

■ **3 to 7: Moderate to High | Protection needed.**

Seek shade during late morning through mid-afternoon. When outside, generously apply broad-spectrum SPF-15 or higher sunscreen on exposed skin, and wear protective clothing, a wide-brimmed hat, and sunglasses.

■ **8+: Very High to Extreme | Extra protection needed.**

Be careful outside, especially during late morning through mid-afternoon. Seek shade and wear protective clothing, a wide-brimmed hat, and sunglasses, and generously apply a minimum of SPF-15, broad-spectrum sunscreen on exposed skin. SOURCE: WWW.EPA.GOV

★ Reminders for Your Office Visit ★

- Bring your **prescription bottles** or **list of medication** to your visit.
- Do you need **medication refills**? Tell us at your office visit.
- Did you let us know if you have **any change(s) in your personal information** such as address, phone number and insurance?
- Do you need a **Referral for a Specialist** or do you need **further testing outside of our office**? You may need to call your insurance plan to verify your coverage.
- Did you check if your plan **covers Well care or a Physical**?
- Are you up-to-date on your screenings for **Mammogram and Colonoscopy**? **Are you due for one?** Ask your MD.
- Are you being referred by your PCP to get any **radiology test(s)**? If so, please let us know in case you need a **Pre-certification**.
- Is your **Immunization record** up to date? Please update us.
- Are you **Pre-Diabetic**? Have you discussed this with your MD?
- Did you get a **Summary of your Visit** today? If not, please ask for it before leaving.
- Do you need to make a **Follow-up appointment**? **Please stop at Check-out and make an appointment before you leave.**

Coronavirus Disease 2019 (COVID-19)

Running Essential Errands

Grocery Shopping, Take-Out, Banking, and Getting Gas

What you need to know

- Stay home if sick.
- Use online services when available.
- Wear a cloth face covering when running errands.
- Use social distancing (stay at least 6 feet away from others).
- Use hand sanitizer after leaving stores.
- Wash your hands with soap and water for at least 20 seconds when you get home.

Grocery Shopping

Stay home if sick

- Avoid shopping if you are sick or have symptoms of COVID-19, which include a fever, cough, or shortness of breath.

Order online or use curbside pickup

- Order food and other items online for home delivery or curbside pickup (if possible).
- Only visit the grocery store, or other stores selling household essentials, in person when you absolutely need to. This will limit your potential exposure to others and the virus that causes COVID-19.

Protect yourself while shopping

- Stay at least 6 feet away from others while shopping and in lines.
- Cover your mouth and nose with a cloth face covering when you have to go out in public.
- When you do have to visit in person, go during hours when fewer people will be there (for example, early morning or late night).
- If you are at higher risk for severe illness, find out if the store has special hours for people at higher risk. If they do, try to shop during those hours. People at higher risk for severe illness include adults 65 or older and people of any age who have serious underlying medical conditions.
- Disinfect the shopping cart, use disinfecting wipes if available.
- Do not touch your eyes, nose, or mouth.
- If possible, use touchless payment (pay without touching money, a card, or a keypad). If you must handle money, a card, or use a keypad, use hand sanitizer right after paying.

Use hand sanitizer

- After leaving the store, use hand sanitizer.

Wash hands at home

- When you get home, wash your hands with soap and water for at least 20 seconds.
- Follow food safety guidelines: clean, separate, cook, chill. There is no evidence that food or food packaging play a significant role in spreading the virus in the United States.

Deliveries & Takeout

Limit in person contact if possible

- Pay online or on the phone when you order (if possible).
- Accept deliveries without in-person contact whenever possible. Ask for deliveries to be left in a safe spot outside your house (such as your front porch or lobby), with no person-to-person interaction. Otherwise, stay at least 6 feet away from the delivery person.

Wash your hands or use hand sanitizer after accepting deliveries or collecting mail

- After receiving your delivery or bringing home your takeout food, wash your hands with soap and water for 20 seconds. If soap and water are not available, use a hand sanitizer with at least 60% alcohol.
- After collecting mail from a post office or home mailbox, wash your hands with soap and water for at least 20 seconds or use a hand sanitizer with at least 60% alcohol.

Banking

Bank online whenever possible

- Ask about options for telephone or virtual meetings to use banking services.
- Use drive-thru banking services, automated teller machines (ATM), or mobile banking apps for routine transactions that do not require face-to-face assistance as much as possible.
- Look for any extra prevention practices being implemented by the bank, such as plexiglass barriers for tellers or bankers, staff wearing cloth face coverings, or physical distancing signs in the lobby.
- Wear a cloth face covering when doing any in-person exchanges and unable to stay at least 6 feet apart from other people – and make sure that bank employees and other people inside the bank are also wearing cloth face coverings.
- Try not to use pens or other items from a public counter if possible.
- Use hand sanitizer containing at least 60% alcohol after any deposit, withdrawal, exchange, drive-thru visit, or use of an ATM.
- Wash your hands thoroughly when you arrive home or to your destination where a restroom is available.

Getting Gas

Use disinfecting wipes on handles or buttons

- Use disinfecting wipes on handles and buttons before you touch them (if available).
- After fueling, use a hand sanitizer with at least 60% alcohol. Wash your hands for at least 20 seconds when you get home or somewhere with soap and water.

If you or a member of your household has signs of COVID-19, call your doctor first, instead of going to the office or the emergency department. Call 911 if you believe it is an emergency.

Support Groups @ Englewood Hospital

Englewood Hospital Events Calendar

Please check Englewood Hospital's Calendar of Events link for upcoming events at <https://www.engagewoodhealth.org/calendar-events-classes>

Bariatric/Weight Loss Surgery Support Group

A free program for patients who have experienced the surgical solution to weight loss. If you are considering surgery, you are also welcome to join the group. The support group meets on the first Tuesday of each month at 6pm.

Bereavement Support Group

VNA of Englewood: Bereavement Support Group runs on Thursdays from 12pm – 1:30 pm at Englewood Hospital. Please check with the hospital main desk for the location on each Thursday. For additional information, please call Erica DiFrancisco at 201-894-333, group facilitator.

Cancer Support:

Breast Cancer Support Group

Relax your mind as you connect with other women living with breast cancer. Open to all women experiencing any stage of breast cancer. First timers should call Cathy Verhulst at 201-608-2162 prior to attending. The support group meets the first and third Friday of every month at 10:30 am.

Oral, Head and Neck Cancer Support Group

SPOHNC (Support for People with Oral, Head and Neck Cancer), a patient directed, self-help organization founded in 1991 by an oral cancer survivor. It is non-profit organization dedicated to meeting the emotional, physical and humanistic needs of oral head and neck cancer patients and their care givers. Bergen County Chapter meets from 7pm – 8:30pm at Englewood Hospital on the fourth Wednesday of the month in conference room "A". For inquiries, please contact Patrick Taaffee at 201-931-6394.

Cardiac – Visiting Hearts: A Support Program for Cardiac Patients

New patients are informed of the "Visiting Hearts" program prior to their day of Pre-Admission Testing. For more information, please call Robyn Giaccone at 201-894-3950.

Diabetes Education

A free program is open to individuals and their families. This group allows participants to share their experiences, learn from others and discuss how they live with diabetes. Guest speakers are often featured. This group meets on the fourth Tuesday of every month from 7pm – 8:30pm. (No meetings in July and August). An Insulin Pump Support Group is held quarterly for those using an insulin pump, those interested in pump therapy, and those using multiple daily injections. To schedule an appointment or for additional information, please call 201-894-3335.

Support Groups @ Englewood Hospital

Families Anonymous

Families Anonymous is a group of concerned relatives and friends whose lives have been adversely affected by a loved one's addiction to alcohol, drugs or related behavioral problems. All who have experienced the effects of a loved one's addiction are welcome.

The group meets at Englewood Hospital every Friday at 7:30pm. Call 917-836-3672 or email gerilam@msn.com for more information.

Neuropathy Support Group

This group meets on the third Thursday of March, April, May September, October and November at 7pm. Call Rich Booz at 201-587-1250, Mary Robertson at 973-226-1535, Tom McCullum at 201-692-9313 or Dean Lewis at 631-223-8416 for additional information.

Post Partum Services / Wellness Wednesdays

You and your newborn child are invited to attend our group, focused on adjustment to motherhood, coping with stress, and adapting to new family dynamics. A licensed clinical social worker facilitates the sessions, which provide comfort, emotional support, information, and referrals to resources for new moms who are adjusting to parenthood. The group meets every Wednesday at 1pm. Registration is required. Call 201-894-3092.

Support Groups @ Holy Name Medical Center

Free Support Groups meet monthly. To register call 1-877-465-9626, unless otherwise noted.

Bariatric Support Group

Support Group for Lap-band or Gastric Bypass patients

Location: Conference Room "1", Marian Hall Holy Name Medical Center. For additional information, please call 201-833-3336

Bereavement Support

Call 201-833-3000 ext 7580 for more information.

Breast Cancer Support and Discussion Group

The Breast Cancer Support and Discussion Group is a vehicle for information, encouragement and support that is facilitated by two clinical psychologists. The support group meets on the first and third Wednesday of every month at 5:30pm – 6:30pm.

Call 201-227-6008 for additional information. Registration is encouraged, but not required. Walk-ins are welcome.

Cancer Support Group

The Cancer Support Group provides an opportunity to meet with people who understand how you feel and what you are going through in a way that others cannot. The support group meets on the second and fourth Tuesday at 4:00pm – 5:00pm. The meetings take place in the Marian Hall Conference Center, Holy Name Medical Center. For additional information, please call 201-227-6008.

Support Groups @ Holy Name Medical Center

They also offer Extended Care Programs: Seabrook House West, Changes for Women/Young Adult Program, Recovery Enhancement Program. They offer “The Family Matrix Program”, a three-day, structured experience designed to help families begin to heal and strengthen the bonds strained by addiction. They provide Holistic Approaches to Treatment such as Equin Therapy, Music Therapy, Yoga, Acupuncture, and many more. Please call for details. Seabrook House accepts many health insurance programs.

Treatment is covered by most insurances. For more information, visit www.Seabrookhouse.org or call 800-761-7575 ext. 1515

WALKING TOWARDS WELLNESS

Walking Tips

- Quicker, smaller steps will cover more ground. Longer strides can tire your muscles.
- Strike the floor with the heel of your shoe onto the ball of your foot and aim to push off with your toes.
- Proper arm posture includes a 90-degree bend. This will put your arm in an “L” position opposed to having your arms straight at your sides. Your arm speed controls your leg speed while walking—so remember to “swing” your arms during your walk.
- Take your heart rate in the middle of your walk to see if you are reaching your Target Heart Rate (THR).
- Control your breathing, take full breaths and exhale completely. Remember to inhale through your nose and exhale through your mouth.
- Avoid bending over or looking down. Stand tall with your head up, checking for any obstacles that are in your path.
- Exercise should never be painful. If you feel any pain during your activity, slow down or stop exercising. Seek medical assistance if the pain does not subside.
- When walking uphill, take smaller strides, leaning into the hill. If the hill is really steep, zigzag up the hill to make it easier on your legs.

Tips for Motivation

- Choose different routes to walk.
- Walk at different times of the day—i.e. early morning, during lunch or at sunset.
- Walk with a partner or join a walking group. If you can’t find one, start one! Surely there are others that will want to get out and enjoy the benefits of walking too.
- Monitor your increase in fitness and how you feel both during your walk and in everyday life in your Tracking Log.
- The key to keeping fit while walking is to keep it regular and increase your efforts slowly at your own pace.
- The longer you walk the more calories you will burn!
